

Journal of the University of Sheffield Geological Society Volume 8

Number 1, June 1982

Author	Initials	Page	Title
Leary	P.N.	1	Editorial
Fleming	S.J.	2	President's report
Cattermole	P.J.	4	The 1982 Leslie Moore Lecture - 'Cratered Worlds' by Dr Patrick Moore
Brown	S.J.	5	Pollen analysis of a late-glacial site in Lincolnshire
Carswell	D.A.	14	The formation of eclogites in west Norwegian gneisses: How, When and Why? (Co-authors S.J. Cuthbert & M.A. Harvey)
Flett	S.D.	20	Dichadogonyaulax or Ctenidodinium?
Young	T.	24	Neoselachian sharks from the Middle Jurassic of England
Walton	W.	32	Kerogen, type and distribution: a summary
Cattermole	P.J.	39	The Shields of Mars
		50	Thesis summaries

Number 2, July 1983

Dunderdale	I.	60	Editorial
Cresswell	R.G.	61	President's report
		63	Review of lectures and field trips 1983
Spinner	E.G.	65	Sheffield University Geological Society and Conservation
Spinner	E.G.	67	Crich - a new excursion
Steward	H.	72	Some effects of chemical weathering on certain engineering properties of Edale Shale
Whyte	M.A.	79	Calcretes at the Fallen Rocks, Isle of Arran
Hutt	E.	86	Orienteering tactics for geologists
Bristow	C.S.	90	Application of Markov Analysis to Lower Devonian fluvial fining-upwards cycles
Young	T.P.	95	Chonetoidea (Brachiopoda) from the Purgillian (Upper Ordovician) of Cautley (Co-author M. Gibbons)
Leary	P.N.	105	Diamond exploration with particular reference to heavy mineral sampling of ephemeral fluvial systems
Cresswell	R.G.	115	Metallic ore exploration in the deeply weathered terrains of Western Australia: a geologist's viewpoint
Gallagher	L.T.	122	Geochemical exploration in Cape Bretton and Cobequid Highlands, Nova Scotia - 'Searching for Gold'
		130	Thesis summaries

Number 3, July 1985

Horry	R.K.	138	Editorial (Co-editor P.M. Weatherill)
Samways	G.M.	139	President's report
		141	Report and Abstracts of the 32nd Inter-University Geological Congree (University of Sheffield, 7-10 January 1985)
Branney	M.J.	152	Ignimbrites, ignimbrite facies and their interpretation

Noel	M.	164	Applications of cave sediment palaeomagnetism
Noel	M.	181	An archaeomagnetic study in Lincoln
Noel	M.	192	The magnetic remanence induced in rocks by a rotating magnetic field
Burnett	R.D.	199	Foraminiferal chert nodules from the Gayle Limestone of Wensleydale
		203	Thesis summaries
Number 4, December 1986			
Brothwood	P.J.	214	President's report
Cripps	J.C.	215	Groundwater in engineering geology
Spinner	E.G.	218	Symposium on boundaries and palynology
Poole	A.J.	221	The ballad of Burrington Combe
Spinner	E.G.	222	Sheffield's worldwide palynologists
O'Brien	P.J.	229	The geology of the Bohemian Massif
Treble	P.J.	240	Structure of the calcschists (Voltri-Rossiglione Unit) Voltri Group, Northern Italy: preliminary report
Treble	P.J.	255	Geology of the Franciscan Assemblage: a review
Davey	R.	274	Mossbauer spectroscopy and its diagenetic applications
Mathieson	G.	288	An experimental study into the rates of reaction between olivine crystals and basaltic melt
		299	Thesis summaries

Numbers 5 & 6 missing
